INDEPENDENT AUDITOR'S REPORT

September 20, 2006

The Honorable Supervisor and Members Township of Ely Board Marquette County, Michigan

I have audited the accompanying financial statements of the governmental activities, each major fund, and aggregate and the aggregate remaining fund information of the TOWNSHIP OF ELY as of and for the year ended June 30, 2006, which collectively comprise the Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Township's management. My responsibility is to express opinions on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted by the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for an opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the TOWNSHIP OF ELY as of June 30, 2006, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in the footnotes, the TOWNSHIP OF ELY has implemented a new financial reporting model, as required by the provisions of GASB No. 34, Basic Financial Statements - and Management's Discussion and Analysis - For State and Local Governments, as amended and interpreted as of June 30, 2006.

In accordance with Government Auditing Standards, I have also issued my report dated September 20, 2006, on my consideration of the Townships internal control over financial reporting and on my test of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in conjunction with this report in considering the results of my audit.

The budgetary comparison information on pages 26 through 30 are not a required part of the basic financial statements but are supplementary information required by accounting principles generaly accepted in the United States of America. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods measurement and presentation of the required supplementary information. However, I did not audit the information and express no opinion on it.

-4-

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

Our discussion and analysis of the Township of Ely, Michigan's financial performance provides an overview of the Township's financial activities for the year ended June 30, 2006. Please read it in conjunction with the financial statements, which begin on page 11.

FINANCIAL HIGHLIGHTS

- The Township's net assets are being reported under GASB 34 for the second year and comparisons with prior years have been included. Comparative information has been presented in various schedules throughout the "Management's Discussion and Analysis".
- Net assets for the Township as a whole increased by \$18,601 which is about two percent of the previous years net assets.
- During the year, The Township had expenses for governmental activities in the amount of \$339,093 and revenues in the amount of \$373,701. This compares with \$331,959 in expenses and \$352,347 in revenues for the previous year.
- The General Fund reported a net fund balance of \$477,481. The net change in the General Fund balance was an increase of \$34,608 which was \$54,354 more than projected.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities (pages 11 and 12) provide information about the activities of the Township as a whole and presents a longer term view of the Township's finances. Fund financial statements start on page 13. For governmental activities, these statements relate how these services were financed in the short term as well as what remains for future funding of these services. Fund financial statements also report the Township's operation in more detail than the government-wide statements by providing information about the Township's most significant funds. The remaining statements provide financial information about activities for which the Township acts solely as a trustee or agent for the benefit of those outside the government.

REPORTING THE TOWNSHIP AS A WHOLE

My analysis of the Township as a whole begins on page 7. One of the most important questions asked about the Township's finances is, "Is the Township as a whole better off or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities report information about the Township as a whole and about its activities in a way that helps answer that question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. These two statements report the Township's net assets and changes in them. Over time, increases or decreases in the Township's net assets are one indicator of whether its financial health is improving or deteriorating. You will need to consider other non-financial factors, howerever, such as changes in the Township's population base and the condition of the Township's capital assets, to assess the overall financial health of the Township.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) (Continued)

REPORTING THE TOWNSHIP AS A WHOLE (Continued)

In the Statement of Net Assets and the Statement of Activities, the Township has two types of activities:

Governmental Activities - Most of the Township's basic services are reported here, including the legislative, elections, public safety, public works, recreation and culture, community and economic development and general services and administration. Property taxes, charges for services and State sources fund most of these activities.

Business Type Activities - The Township charges a fee to customers to help it cover most of the cost of certain services it provides. The Township provides water services for Township residents and charges a fee to cover the costs of operations.

REPORTING THE TOWNSHIP'S MOST SIGNIFICANT FUNDS

My analysis of the Township's major funds begins on page 9. The fund financial statements begin on page 13 and provided detailed information on the most significant funds but not the Township as a whole. Some funds are required to be established by State law and by bond covenants. However, the Township establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using taxes, grants, and other money. The Township's two kinds of funds (Governmental and Proprietary) use different accounting methods.

Governmental Funds - Most of the Township's services are reported in governmental funds, which focuses on how money flows into and out of those funds and the balances left at year end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can be readily converted into cash. The governmental fund statments provide a detailed short term view of the Township's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Township's programs. I describe the relationship (or differences) between governmental activities reported in the Statement of Net Assets and Statement of Activities and governmental funds in a reconciliation which follows the fund financial statements.

Proprietary Funds - When the Township charges customers for the services it provides, those services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are in the Statement of Net Assets and the Statement of Activities. In fact, the Township's enterprise funds (a component of proprietary funds) are the same as the business type activities I report in the governmental wide statements but provide more detail and additional information, such as cash flows, for proprietary funds.

THE TOWNSHIP AS TRUSTEE

The Township is the trustee, or fiduciary, for assets that, because of a trust arrangement can be used only for the trust beneficiaries. All of the fiduciary activities are reported in a separate Statement of Fiduciary Net Assets on page 17. I have excluded these activities from the other financial statements because the Township cannot use these assets to finance its operations.

THE TOWNSHIP AS A WHOLE

Table I provided a summary of the Township's net assets at June 30, 2006.

	 ernmental tivities	prietary tivities	al Primary overnment
Current and other assets Non current assets	\$ 385,497 104,085	56,443 789,872	441,940 893,957
Total Assets	\$ 489,582	\$ 846,315	\$ 1,335,897
Current liabilities Non current liabilities	\$ 12,101	\$ 19,171 288,199	31,272 288,199
Total Liabilities	\$ 12,101	\$ 307,370	\$ 319,471
Net Assets: Invested in capital assets Restricted Unrestricted	\$ 55,000	415,759 294,398 171,212)	
Total Net Assets	477,481 ======	538,945	1,016,426

Net assets of the Township's governmental activities stood at \$477,481. Unrestricted net assets - the part of net assets that could be used to finance day to day activities without constraints established by debt covenants, enabling legislation or other legal requirements stood at \$318,396.

The \$318,396 in unrestricted net assets, of governmental activities represents the accumulated results of all past years' operations. The operating results of the Feneral Fund will have a significant impact on the change in unrestricted net assets from year to year. Unrestricted net assets amounted to \$ 293,333 at June 30, 2005.

The results of this year's operation for the Township as a whole are reported in the Statement of Activities (See Table 2), which shows the changes in net assets for the fiscal year ended June 30, 2006.

Net Assets, Ending	ş	477,481	\$	538,944	\$	1,016,425
•		·	====		==	=========

The Township's total revenues were \$440,789. The total cost of all programs and services was \$422,189, leaving an increase in net assets of \$18,600. My analysis below separately considers the operation of governmental activities:

GOVERNMENTAL ACTIVITIES

The net assets of the Township's governmental activities increased \$34,608 and the net assets of the Township's business type activities decreased \$16,008 for the year ended June 30, 2006.

The \$36,608 increase is made up of \$54,130 of net profit from governmental funds discussed later, less depreciation expense of \$17,522.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) (Continued)

THE TOWNSHIP'S FUNDS

As the Township completed the year, its governmental funds (as presented in the balance sheet on page 13) reported a combined fund balance of \$373,396 which is a \$25,063 increase from the beginning of the year.

The main reason that there was an increase from the beginning of the year was due to a savings in budgeted general government expenditures in the amount of \$18,222; budgeted public safety in the amount of \$5,031; budgeted highways and streets in the amount of \$5,591; budgeted sanitation in the amount of \$6,085; budgeted culture and recreation in the amount of \$5,010; and budgeted depreciation in the amount of \$13,128.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the Township Board reviewed and amended the originally adopted budget a few times.

Actual charges to expenditues were \$53,068 less than the final amended budget. Additionaly, actual revenues were \$1,286 greater than the final budget projection.

The original budget for revenues was \$352,110 which was amended to \$372,415. The original budget for expenditures was \$358,280 which was amended to \$392,161.

CAPITAL ASSETS

As of June 30, 2006, the Township had \$808,043 invested in a variety of capital assets including land, building and improvements, equipment and vehicles as are detailed in Table 3 below:

Table 3 - Capital Assets at June 30, 2006 (Net of Depreciation)

		ernmental tivities		usiness Type tivities	Total	
Land, Buildings and Improvements Equipment Vehicles	\$	43,670 37,117 23,298	\$	692,302 11,656	\$	735,972 48,773 23,298
	\$ ===	104,085	\$ ===	703,958	\$	808,043

The Township had additions to fixed assets during the current year in the amount of \$27,542. Depreciation expense for the year was \$17,522 in the governmental funds and \$35,238 in the business type activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) (Continued)

DEBT

At June 30, 2006, the Township had \$288,199 in bonds outstanding as detailed in Note E to the financial statements.

ECONOMIC FACTORS FOR NEXT YEAR'S BUDGET

In preparing the Townships budget for the year ended June 30, 2006, we looked at the past year's budget as well as the last two complete years' actual revenues and expenditures and prepared our budget from these documents, with increases and decreases where necessary.

CONTACTING THE TOWNSHIP'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the Township's finances and to show the Township's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Township of Ely; 1555 County Road 496; Ishpeming, Michigan 49849.

NOTES TO FINANCIAL STATEMENTS

June 30, 2006

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the more significant accounting policies of the Township of Ely:

1. Financial Reporting Entity

In accordance with the provisions of the Governmental Accounting Standards Board Statement No. 14 entitled "The Financial Reporting Entity" a governmental financial reporting entity consists of a primary government, such as a general purpose local government, and component units, which are defined as units for which the primary government is financially accountable. The primary government is financially accountable if it appoints a voting majority of a component's governing body, and there is a potential for the component unit to provide certain financial benefits to, or impose certain financial burdens on, the primary government.

As required by accounting principles generally accepted by the United States of America, the financial statements of the reporting entity includes those of the Township of Ely (the primary government). However, there are no units which qualify as component units as defined above.

2. Fund Accounting

The accounts of the Township are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The various funds are grouped in the financial statements in this report as follows:

Governmental Funds:

General Fund - The General Fund is the general operating fund of the Township. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally restricted to expenditures for specified purposes.

Proprietary Funds:

Enterprise Funds - Enterprise Funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Fiduciary Funds:

Trust and Agency Funds - Trust and Agency Funds are used to account for assets held by the Township as an agent for other governmental units and other funds. These agency funds are custodial in nature and do not involve measurement or results of operations.

Account Groups:

General Long-Term Debt Account Group - This account group presents the balance of general obligation long-term debt which is not recorded in proprietary funds.

3. Measurement Focus

The accounting and reporting treatment applied to the fixed assets associated with a fund are determined by its measurement focus. All governmental funds are accounted for on a spending or "financial flow" measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their unreserved fund balance (net current assets) is considered a measure of "available spendable resources." Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Fixed assets used in governmental fund type operations are accounted for in the general governmental fund type at original cost minus accumulated depreciation. The book value of these assets is reported as "Reserved Fund Balance" in the general governmental fund tupe.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities (whether current or noncurrent) associated with their activities are included on their balance sheets. Their reported fund equity (net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total assets.

Depreciation of all exhaustible fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary funds balance sheets. Depreciation has been provided over the estimated useful lives using the straightline method. Fixed assets and their related accumulated depreciation, by major classification are as follows:

	Cost	Accumulated Depr.	Current Depr.	Estimated Lives
Greenwood Water System	\$918,593		. ,	40 years
Diorite Water System	\$379,256	\$ 235,809	\$ 11,031	10-40 years

4. Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements.

All governmental funds are accounted for using the full accrual basis of accounting. Their revenues are recognized when they become measurable and available as net current assets. Expenditures are generally recognized under the full accrual basis of accounting when the related fund liability is incurred.

All proprietary funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

Agency Funds are accounted for using the cash basis of accounting. Since Agency Funds do not involve measurement of results of operations, there are no revenue or expenditure accounts.

5. Budgets and Budgetary Accounting

The township follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. In May, the Township Supervisor submits to the Township Board, a proposed operating budget for the fiscal year commencing the following April 1. The operating budget includes proposed expenditures and the means of financing them.
- b. A public hearing is conducted to obtain taxpayer comments.
- c. Prior to July 1, the budget is legally enacted by resolution.
- d. Any revision that alters the original budget of any fund must be approved by the Township Board.
- e. Formal budgetary integration is employed as a management control device during the year for the General Fund and Special Revenue Funds.
- f. Budgets for the General and Special Revenue Funds are adopted on a basis consistent with generally accepted accounting principles.
- q. Budget appropriations lapse at the end of each fiscal year.
- h. Budgeted amounts are stated as originally adopted or as amended by the Township Board.

6. Cash and Investments

Cash includes amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the governmental unit.

Investments are stated at cost or amortized cost.

7. Inventory

Inventories are not significant and have not been recognized in any of the funds.

8. Due from Other Funds

Due from other funds represents current interfund loans receivable and are considered "available spendable resources."

9. Net Assets

Restricted net assets in the General Fund totaled \$ 55,000 and represents amounts to be used for budget stabilization.

10. Total Columns on Combined Statements

Total columns on the Combined Statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns does not present financial position, results of operations, or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

NOTE B - CASH AND INVESTMENTS

The captions on the combined balance sheet relating to cash, investments, restricted assets and the amounts in the total "Memorandum Only" are as follows:

Total (Memorandum Only) Cash on hand and in bank Investments		\$ 251,601 224,085
	Total	
A summary of deposits by type are: Cash on hand Cash in demand accounts Cash in savings accounts Certificates of deposit		\$ 575 261 250,765 224,085
	Total	\$ 475,686

These deposits are in two financial institutions located in the County of Marquette in varying amounts. All accounts are in the name of the Township and a specific fund or common account. They are recorded in Township records at cost. Interest is recorded when the deposits mature or is credited to the applicable account.

Statutory Authority

Act 217, PA 1982, authorizes the Township to deposit and invest in:

- (a) bonds and other direct obligations of the United States or its agencies.
- (b) certificates of deposit, savings accounts, deposit accounts, or depository receipts of federally insured banks, insured savings and loan associations or credit unions insured by the national credit union administration that are eligible to be depository of surplus money belonging to the State under Section 5 or 6 of Act 105, PA 1855, as amended (MCL 21.145 and 21.146).
- (c) commercial paper rated at time of purchase within the three highest classifications established by not less than two standard rating services. Maturity cannot be more than 270 days after purchase and not more than 50 percent of any fund may be invested in commercial paper at any time.
- (d) United States government or federal agency obligation repurchase agreements.
- (e) banker's acceptance of United States banks.
- (f) mutual funds composed of investments which are legal for direct investments by local units of government in Michigan.

The Township's investments are in accordance with statutory authority.

Michigan law (Section 3, Act 40, PA 1932, as amended) prohibits security in the form of collateral, surety bond, or another form for the deposit of public money.

At year end, the Township's cash and cash equivalents bank balance was \$224,085 of which \$105,756 was insured by the Federal Deposit Insurance Corporation (FDIC) Regulation number 330.8 The remaining balance of \$118,329 was uninsured and uncollateralized. This regulation in summary provides that deposits of a governmental unit are insured for the lesser of the amount of the combined deposits or \$100,000 demand deposits and \$100,000 time deposits in every financial institution, that is not a branch location and is a member of the FDIC.

Investments

Investments made by the Township are summarized below. The investments that are represented by specific identifiable investments securities are classified as to credit risk within the following two categories:

Category 1: Insured or registered, or securities held by the Township or its agent in the Township's name.

Category 2: Uninsured and unregistered with securities held by the counterparty's trust department or agent in the Township's name.

		sk gory	Carrying	Market
Investment Type	1	2	Value	Value
Certificates of Deposit: Governmental funds Proprietary funds	\$ 187,685 36,400	\$ - 	\$ 187,685 36,400	\$ 187,685 36,400
Total Investments	\$ 224,085	\$ - ========	\$ 224,085	\$ 224,085

NOTE C - CHANGES IN CAPITAL ASSETS

A summary of changes in capital assets is as follows:

	Balance July 1, 2004	Additions	Retirements	Balance June 30, 2006
Land, buildings and additions Equipment Vehicles	\$ 340,202 99,757 22,277	\$ - 1,690 25,377	\$ - 20,087 22,277	\$ 340,202 81,360 25,377
	\$ 462,236 	\$ 27,067	\$ 42,364 ========	\$ 446,939
Less accumulated deprecia	ation			342,854
	BOOK V	ALUE OF CAP	ITAL ASSETS	\$ 104 085

NOTE D - CHANGES IN LONG-TERM DEBT

Long-term debt at June 30, 2006 consisted only of water system revenue bonds which are reported in detail in Note E of the Notes to Financial Statements.

NOTE E - WATER SYSTEM REVENUE BONDS

The Township adopted Ordinance No. 1~1974 amended by Ordinance No. 2~1975 effective August 29, 1975 authorizing the issuance of Greenwood Water Supply System revenue bonds. The original amount of the revenue bonds was \$140,000. The unpaid balance paying interest at 5.00% per annum and maturing on January 1, of each year, is payable as follows:

		==	======
	TOTAL	\$	41,199
	Less current maturities	\$	46,199 5,000
			
•	Less amount prepaid	(10,801)
4,000	2016		4,000
6,000	2008 to 2015, inclusive		48,000
\$ 5,000	2007	Ş	5,000

The Township adopted Ordinance No. 1-1995 authorizing the issuance of Greenwood Water Supply System junior lien revenue bonds. The original amount of the revenue bonds was \$ 341,000. Amortization of the bonds, paying interest at 5.25% per annum and maturing on September 1, of each year, are payable as follows:

\$ 5,000 6,000 7,000 8,000 9,000 10,000 11,000 12,000 13,000 14,000 15,000 16,000 15,500	2006 to 2010, inclusive 2011 to 2012, inclusive 2013 to 2016, inclusive 2017 to 2018, inclusive 2019 to 2020, inclusive 2021 to 2022, inclusive 2023 to 2024, inclusive 2025 to 2026, inclusive 2027 2028 2029 2030 to 2031 2032 Less amount prepaid	\$ 25,000 12,000 28,000 16,000 18,000 20,000 22,000 24,000 13,000 14,000 15,000 32,000 15,500 (62,500)
	Less current maturities	\$ 192,000 5,000
	TOTAL	\$ 187,000

The Township adopted Ordinance No. 1-1987 effective May 3, 1979 authorizing the issuance of Diorite Water Supply System revenue bonds. The original amount of the revenue bonds was \$ 109,000. The unpaid balance, paying interest at 5.00% per annum and maturing on January 1, of each year, is payable as follows:

\$ 3,000 4,000 5,000	2007 2008 to 2012, inclusive 2013 to 2020, inclusive	\$	3,000 20,000 40,000
	Less current maturities	\$	63,000
	TOTAL	 \$ ==	60,000

NOTE F - LONG-TERM CONTRACTS PAYABLE

The Township enters into contracts for road reconstruction with the Marquette County Road Commission. Terms of the contracts call for the Marquette County Road Commission to upgrade specified county roads with the Township paying a percentage of the actual costs over a three year period. During the year ended June 30, 2006, there were no projects in progress.

The Township normally budgets for these payments annually and records them as an expenditure in the year paid.

NOTE G - PROPERTY TAXES

Property taxes are levied on December 1. The Township collects its own property taxes until mid February at which time collection is turned over to Marquette County.

The tax rate to finance general government services for the year ended June 30, 2006 was \$ 3.2415 per \$1,000 of assessed valuation which computed to \$ 134,277 on the present taxable valuation of \$ 41,427,405.

NOTE H - RETIREMENT PLAN

The township adopted Ordinance No. 1991-2 on July 16, 1991 creating a retirement plan for employees. Under the Ordinance, 50% of the cost is to be paid by the Township and 50% of the cost is to be paid by the covered employees. For the year ended June 30, 2006, the Township contributed \$ 5,434 to the retirement plan.

NOTE I - RISK MANAGEMENT

The township is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Township maintains insurance coverage through the Michigan Township Participating Plan which covers each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the Township. Settled claims have not exceeded this coverage in any of the past three years.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

September 20, 2006

The Honorable Supervisor and Members Township of Ely Board Marquette County, Michigan

I have audited the accompanying general purpose financial statements of the TOWNSHIP OF ELY as of and for the year ended June 30, 2006, and have issued my report thereon dated September 20, 2006. I conducted my audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in "Government Auditing Standards" issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the Township of Ely, State of Michigan's general purpose financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that are required to be reported under "Government Auditing Standards" and a report to management communicating immaterial instances of noncompliance was not required.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered the Township of Ely, State of Michigan's internal control over financial reporting in order to determine my auditing procedures for the purpose of express ing my opinion on the general purpose financial statements and not to provide assurance on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control over financial reporting and its operation that I consider to be material weaknesses.

This report is intended for the information of the audit committee, management, and federal awarding agencies and pass through entities. However, this report is a matter of public record and its distribution is not limited.

September 20, 2006

The Honorable Supervisor and Members of the Township Board Township of Ely Ishpeming, Michigan

I have audited the general purpose financial statements of the Township of Ely for the year ended June 30, 2006 and have issued my report thereon dated September 20, 2006. As part of my audit, I made a study and evaluation of the internal accounting control system to the extent I considered necessary to determine the nature, timing and extent of my auditing procedures. During my evaluation, I did not observe any areas that could use improvement or change in order to improve internal accounting controls.

Sincerely,

Thomas R. Fleury, C.
